CAMBODIA

BANGLADESH

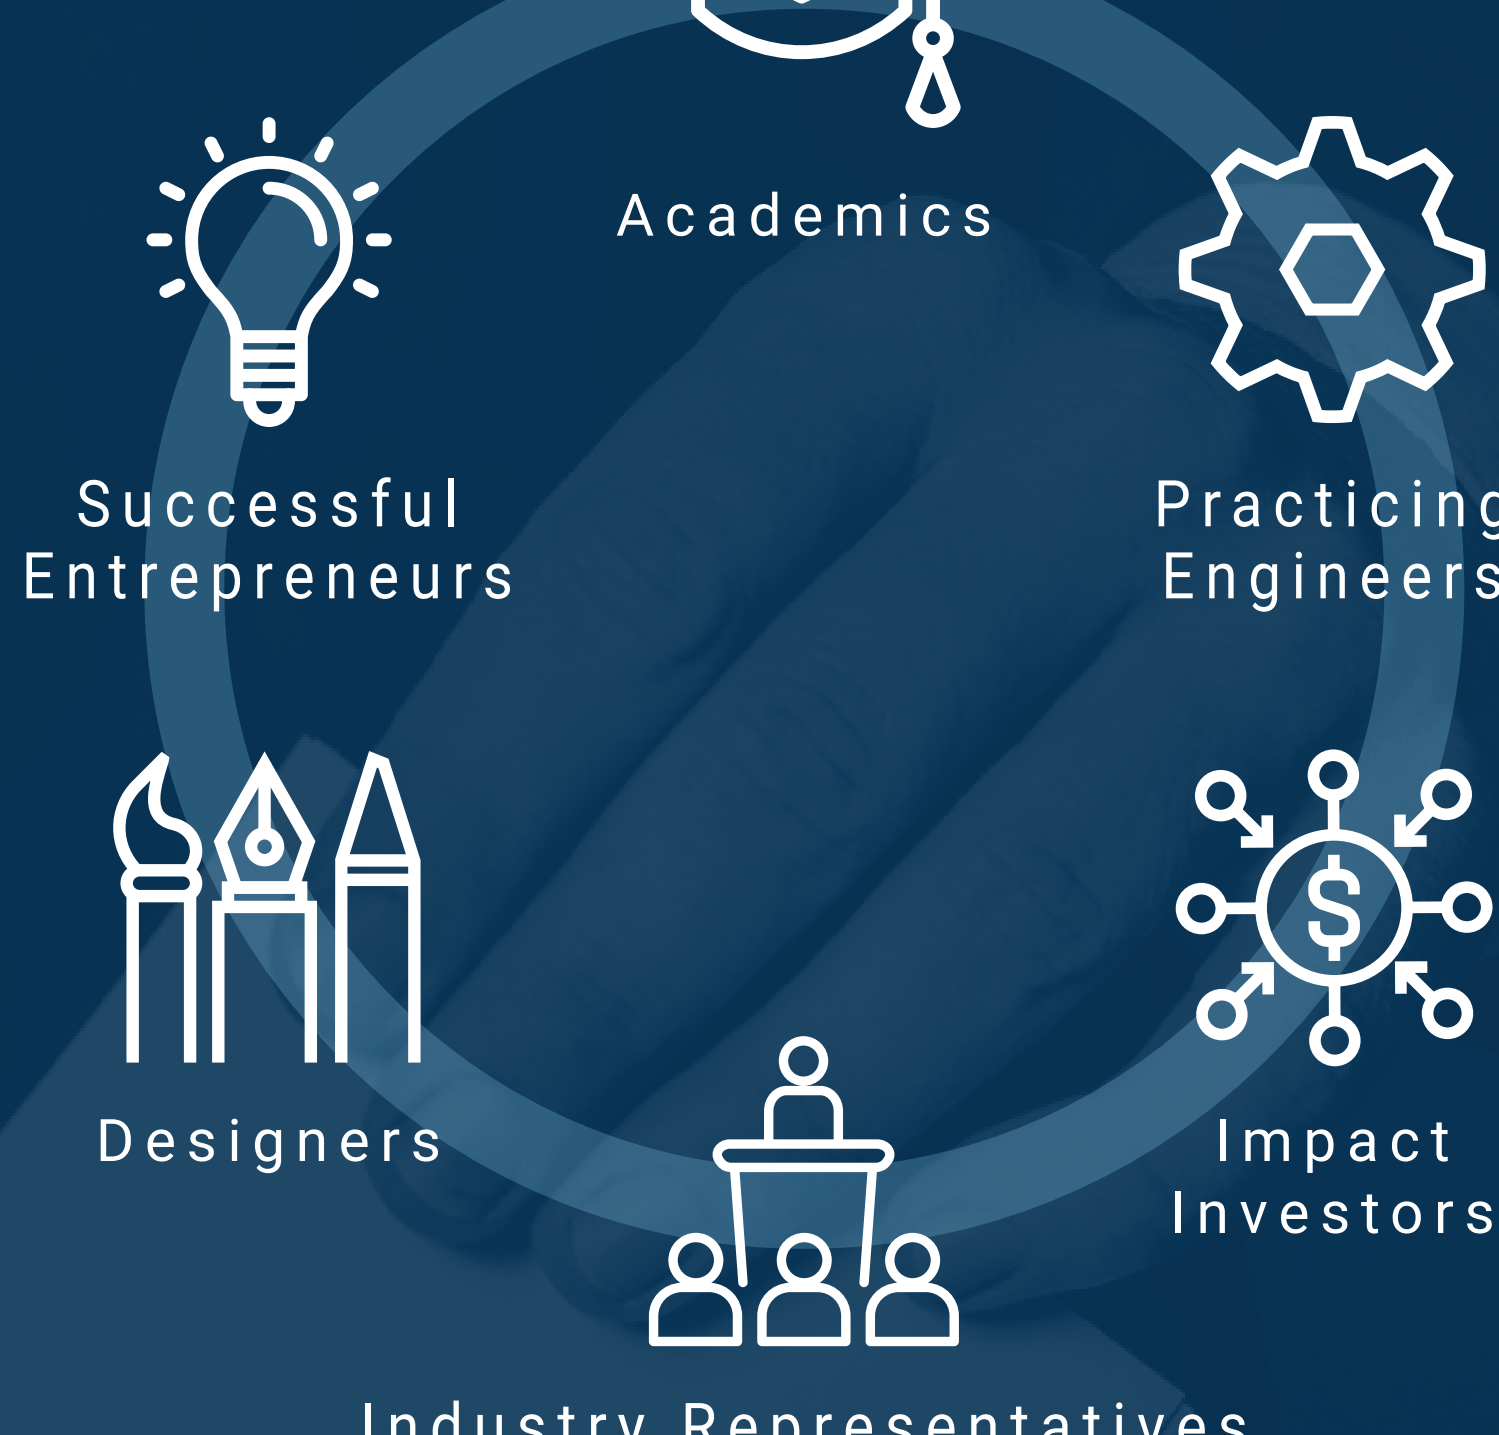

INDONESIA

JUDGES PANEL

An esteemed panel of judges privately interviewed each of the eight ISHOW India finalists.

ASME ISHOW's panel of judges includes:

SEED GRANTS & TECHNICAL SUPPORT

Three entrepreneurs emerged as regional winners who will share \$30,000 in seed grants and receive technical support to help expedite their innovations to market.

GRAND PRIZE WINNERS

ELECTROSTATIC SPRAYING SYSTEM

Aigret Innovations India Private Limited (Pune, India)

The Electrostatic Spraying System for produce is four times more efficient than conventional spraying systems. It provides a more uniform dispersion and coating of the target, reduces application time, reaches hidden areas of the produce, and conserves the applied liquid.

CEREBO

Bioscan Research (Ahmedabad, India)

Cerebo is a non-invasive, fully computerized system for detecting intracranial hemorrhage in two minutes. When deployed in trauma centers, emergency departments, and ambulances, it can save the lives of millions of patients whose brain injuries go undiagnosed.

JALODBUST

Cherries Engineering Innovation India Private Limited (Bengaluru, India)

JALODBUST removes the settled and densified sludge left behind in septic tanks by scraping, agitating, and pumping it out while eliminating the need for human touch.

FAN FAVORITE

The Innovation with the most votes in social media for each regional event receives a \$1,000 seed grant.

FLEXMO CRUTCH

Flexmotiv Technologies Private Limited (Delhi, India)

FlexMo is the first self-standing crutch, designed to be durable and slip-resistant in all terrains. Its forward propulsion and shock absorption leads to lower energy consumption and less fatigue/pain.

"We are proud to offer a forum for engineering problem-solving that truly improves lives."

-Tom Costabile
ASME Executive Director/CEO
